If you want to find a specific list using keywords, all the tools you require are now integrated into Twitter itself. Use the main Twitter search tool to enter your keywords and click the magnifying glass icon to perform your search. When the results appear, select 'Timelines' in the left-hand panel and you'll see it's been filtered to show only those lists containing your search terms.

10.4 SEE WHAT LISTS YOU'VE BEEN ADDED TO

If you've been added to a public list, then you'll receive a notification when you're first added to the list – you'll be shown who's added you to the list (click their @username to find out more and possibly follow them) plus the web address of the list itself, which you can then view. You can also see which lists – if any – you've been added to via your own profile page – click the 'Lists' link and select 'Member of' to see which public lists you've been added to.
