Over time cache files build up Even though they are “temporary,” nobody is taking out the trash.. Word 2011 has significantly improved collaboration tools, making it obvious that Microsoft now considers Word for Mac, and thereby the Mac itself, to be an enterprise-level work tool.. If you want to clear cache on your Mac right now, we suggest doing it the easy way: • Launch CleanMyMac X • Select System Junk • Click 'Scan', and then “Clean” That’s it, all cache files cleaned!You can download CleanMyMac X for and try.

• Type in ~/Library/Caches and hit enter to proceed to this folder • Optional step: You can highlight and copy everything to a different folder just in case something goes wrong.. Now, repeat the same steps above, but substitute ~/Library/Caches with /Library/Caches Make sure that once you have finished clearing out these caches for additional hard drive space, you empty out your Trash.. To do this, Control-click on the Trash icon in the dock and select “Empty Trash.
